To Whom It May Concern:

Scott Harding and his Big Fishin' team are all members in good standing with the Southern Kingfish Association.

Scott is well respected in our organization both by his peers and by the SKA staff. In addition to being good fishermen, He and his team all present themselves well at our events and are one of the select teams who have qualified for our National Championship since 2001.

The Big Fishin' team has won more than their share of events and they consistently appear on tournament leader boards and in *Angler Magazine*. Their teams networking ability is exceptional and they have many friends throughout the organization. They truly exemplify the sportsmanship and values that our organization promotes.

Their popularity makes them a great asset to potential sponsors and the products or services represented. I would highly recommend they be considered for any sponsorship opportunities that may be available.

Sincerely,

Jack Holmes
Managing Partner
